

RENZO POZO

WEB DEVELOPER

About me

I am an out of the box thinker and creative web developer with a background in architectural drafting and home renovations. My passion is to create and implement new ideas to satisfy people's needs. When I am not coding, I enjoy surfing, spending time with my dogs, and watching my Peruvian soccer team.

WEATHER APP

- An app that provides the most updated weather report from open weather map.
- Built with React, Redux, JavaScript, Webpack, Express, Loopback, and Bootstrap.

Experience

SD DRAFTING SOLUTIONS, SAN DIEGO, CA

Owner- October 2015 – Present

SDDS was founded with the purpose of easing the transition between the city/county building department and clients who need to get building permits for constructions or renovations.

- Meet with potential client at the property that will be remodeled or demolished.
- Discuss future changes. Some projects require working closely with certified engineers to meet the city/county requirements.
- Draw plans of current layout and provide all the proposed layout plans to the engineer.
- Go to the city/county and get record on property and make sure property is not under any violations.
- Apply for building permit and provide approved plans to owner.

FRONTLINE SURVEYING AND MAPPING, ATLANTA, GA

September 2013 – July 2015

- Draw surveying and mapping plans for commercial and residential clients.
- Everyday use of websites such as FIMA.gov, GIS.gov and Google Maps to complete jobs.
- My responsibility was to draw plans for as-built survey, demolition plan, grading, variance plan, house location plan, foundation survey, final survey, and site plans.
